

AFSHIN SOHRABI

Frontend developer | React Js , Tailwind Css

Fars , Shiraz sohrabiafshin6962@gmail.com [Linkdin](#) [Github](#) 09377447164

SUMMARY

Frontend Developer focused on building responsive and user-friendly web applications using HTML, CSS, JavaScript, React, and Tailwind CSS. Passionate about creating clean interfaces, improving user experience, and continuously expanding technical skills through personal projects and hands-on learning. Currently pursuing a career in software development with a strong interest in modern frontend technologies.

EDUCATION

Islamic Azad University

2024

Part-time Associate Degree in computer Engineering

PROJECTS

Grocery Shop

Built a modern, fully responsive grocery e-commerce website optimized for mobile, tablet, and desktop devices. Developed reusable React components to create a clean and scalable architecture, featuring product listing pages, product categories, a mobile-friendly navigation menu, and a sticky navbar for an improved user experience. The project was built with React.js, Vite, Tailwind CSS, JavaScript (ES6+), React Router DOM, and React Icons. [Repository](#)

Restaurant Website

Built a modern, fully responsive website optimized for mobile, tablet, and desktop devices. Implemented smooth scrolling navigation, a mobile-friendly navigation menu, scroll reveal animations using the Intersection Observer API, and a sticky navbar with a shadow effect. Developed the project with a clean, modern UI and a reusable, well-organized code structure using HTML5, Tailwind CSS, JavaScript (ES6+), and Font Awesome. [Repository](#)
